

C# - Publish NET Core App to IIS Lab

Orestis Meikopoulos
Consultant – Modern Apps

Agenda

- We will publish a dotnet core web app to IIS

ASK: Follow the instructions inside **LabInstructions.md**. You can find this file inside **Day 1 -> ServeNetCoreProjectLab** folder of the **Microsoft.CSharp.Advanced** solution

How it Works

- Run this as a standalone exercise in the folder stated inside the Lab Instructions
- At the end of the allotted time, one of you is going to be picked to walk us through the exercise

Exercise

Serve the MVC Project -> Publish NET Core App to IIS (25 mins)

Wheel of fortune

Thank You

- For the opportunity
- For participating
- For listening
